

IN THE SPECIFICATION

A new specification is submitted as required, in compliance with 37 C.F.R. § 1.125(b).

Please enter the substitute specification submitted herewith. The original specification has been used for marking the changes by underlining additions and striking through deletions.

A clean copy is also enclosed. Since all of the claims are cancelled by this amendment, the original claims have not been revised.

It is believed that this is in compliance with the requirement under 37 C.F.R. 1.125(b) and it is hereby stated that to the best of the undersigned attorney's knowledge, the substitute specification contains no new matter, but only relates to material that is evident from the original specification, the original claims, and the original drawings.

An abstract of the disclosure has been added to the specification on a separate sheet.
